1. SALGA STRATEGIC PLAN 2012/17

2. ANNUAL PERFORMANCE PLAN 2012/13

Presentation to Portfolio Committee on Co-operative Governance and Traditional Affairs
28 February 2012
PART 1:

STRATEGIC PLAN

(2012 – 2017)
• SALGA as a Schedule 3A Public Entity is governed by the PFMA and related National Treasury Regulations - read in conjunction with the Framework for Strategic Plans and Annual Performance Plans set out the legal requirements for the SALGA 5-Year Strategic Plan.

• The SALGA 5-Year Strategic Plan 2012-2017 sets out the new PEC / NEC strategic agenda for the duration of their term of office.

STRATEGIC PLANNING PROCESS

- 15 January 2012: NEC approval of SALGA Strategic Plan 2012 – 2017
- 30 November 2011: Submit 2nd Draft SALGA Strategic Plan 2012 – 2017 to Minister: CoGTA
- 9th January 2012: Minister: CoGTA comments on SALGA 2nd draft SALGA Strategic Plan 2012-2017
- 10th and 11th January: Internal Task Team workshop Strategic Plan refinements
- 31 August 2011: Submit 1st Draft SALGA Strategic Plan to the Acting Minister: coga
- 18-19 August 2011: Provincial Conference
- SALGA National Conference
- Translate National Conference Resolutions into Strategic Objectives and KPI
- Refine SALGA Strategic Plan 2012 - 2017
- Finalise SALGA Strategic Plan 2012-2017
- EMT sign-off of SALGA Strategic Plan 2012-2017 to the Minister: CoGTA
- EMT Lekgotla (18-20 Oct 2011)
  PEC Lekgotla 22 Sept – 8 Nov 2011
  NEC Lekgotla 16-18 Nov 2011

www.salga.org.za
Lobby, advocate, protect and represent the interest of local government at relevant structures and platforms.

Act as an employer body representing all municipal members and, by agreement, associate members.

Build the capacity of the municipality as an institution as well as leadership and technical capacity of both Councillors and Officials.

Support and advise our members on a range of issues to assist effective execution of their mandate.

Build the profile and image of local government within South Africa as well as outside the country.

Serve as the custodian of local government intelligence and the knowledge hub and centre of local government intelligence for the sector.

Transform local government to enable it to fulfil its developmental mandate.

Vision
To be an association of municipalities that is at the cutting edge of quality and sustainable services.

Mission
To be consultative, informed, respected, credible and accountable to our membership, and provide value for money.

Values
Responsive, Innovative, Dynamic and Excellence.

The Voice of Local Government

APPREACH TO STRATEGIC PLANNING

- **INPUTS**: The resources that contribute to the production and delivery of outputs

- **ACTIVITIES**: The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes

- **OUTPUTS**: The final products, goods, and services produced for delivery

- **OUTCOMES**: What we wish to achieve?
The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs

- **IMPACTS**: What we aim to change?
The developmental results of achieving specific outcomes

**Local Government Sector Goals**
- Long term impact level results

**SALGA results**
- That contribute to sector goals - strategic objectives and priority programmes

**Plan budget, implement and monitor (delivery of mandate)**
APEX PRIORITIES: Key programmes which, if achieved, will fundamentally transform Local Government towards better delivery on all its developmental mandates.

STRATEGIC GOALS: Development outcomes that SALGA seeks to assist the sector to achieve.

STRATEGIC OBJECTIVES: Means through which SALGA contributes to the attainment of the developmental outcomes of the Sector.

KPA’s: Key areas of performance towards the achievement of the desired outcomes.

5-YEAR KPI: Result indicator demonstrating performance against 5 year targets.

1-YEAR KPI: Result indicator demonstrating performance against annual targets.

ANNUAL TARGETS: Progressive input indicators, which culminate in the achievement of the KPIs.

SALGA STRATEGIC PLANNING
GOALS
1. Local Government delivers equitable and sustainable services
2. Safe and healthy environment and communities
3. Coherent Planning and Socio-economic development at the local level
4. Effective and responsive Local Govt that is accountable to communities
5. Human Capital development in local government
6. Financial and organisationally capacitated municipalities
7. An effective and efficient administration

APEX PRIORITIES
1. Fiscal and Financial Management
2. Legislative and Policy Review
3. Municipal Capacity Building
GOAL 1

ACCESSIBLE, EQUITABLE AND SUSTAINABLE MUNICIPAL SERVICES DELIVERED BY LOCAL GOVERNMENT

Problem Statement
Municipalities can celebrate the provision of basic services to millions of their residents, however some challenges still remain, particularly in terms of access, development and maintenance of infrastructure and the ability to provide these services in an affordable and sustainable manner.

Goal Definition
This goal covers the policies, processes, operations and capacity that ensures that local government is able to provide a comprehensive range of municipal services (legislated and value adding) to communities, organisations and people and a manner that makes its accessible, equitable and sustainable.

Goal Execution
• Facilitate universal access to sustainable municipal infrastructure and services through:
  • Facilitate access to bulk infrastructure fund for priority projects
  • Facilitate the establishment of sustainable institutions to manage bulk infrastructure
  • Sustainable pricing and funding of services facilitated
  • Institutional arrangements to render sustainable services facilitated (municipal and social services)
  • Active citizenry for a cleaner environment (waste management promoted)
  • Refurbishment of municipal infrastructure services facilitated
  • Regulatory environment towards sustainable service provision
GOAL 1
ACCESSIBLE, EQUITABLE AND SUSTAINABLE MUNICIPAL SERVICES DELIVERED BY LOCAL GOVERNMENT

A remnant of South Africa’s past is high levels of disparity and inequity, in particular, disadvantaged communities have been subject to poor conditions in terms of health, housing, social and economic development. Given this the key priority for local government is the development of sustainable human settlements where social, health, economic and environmental factors are addressed in an integrated manner.

This goal encapsulates the various social, health, economic and environment interventions that are implemented to build safe communities (crime and disaster), healthy communities (health status, socio-psychological wellbeing, functional communities), and environmentally aware and active communities (improved environment management). It also incorporates a specific focus on eradicating poverty, inequality, marginalisation and xenophobia at a municipal level.

Facilitate coherent and effective environmental management through:
- Facilitated municipal development management that responds to climate change including mitigation and adaptation
- Integrated Environmental management facilitated
- Improved & coherent municipal planning for disaster management and risk reduction

Facilitate safer communities through:
- Adequately capacitated and funded role for Local Government on Migration and related Public Safety

Facilitate healthier communities through:
- Well defined and funded Local Government role in District Health System (DHS)
- Model for the development of sustainable community services, facilities and healthy lifestyles developed and implemented

GOAL 2
SAFE AND HEALTHY ENVIRONMENT AND COMMUNITIES

Problem Statement
A remnant of South Africa’s past is high levels of disparity and inequity, in particular, disadvantaged communities have been subject to poor conditions in terms of health, housing, social and economic development. Given this the key priority for local government is the development of sustainable human settlements where social, health, economic and environmental factors are addressed in an integrated manner.

Goal Definition
This goal encapsulates the various social, health, economic and environment interventions that are implemented to build safe communities (crime and disaster), healthy communities (health status, socio-psychological wellbeing, functional communities), and environmentally aware and active communities (improved environment management). It also incorporates a specific focus on eradicating poverty, inequality, marginalisation and xenophobia at a municipal level.
GOAL 3
PLANNING AND ECONOMIC DEVELOPMENT AT A LOCAL LEVEL

Problem Statement
The history of municipal planning in South Africa has contributed to inappropriate and undesirable patterns of development in municipalities characterised inefficiency, inequality and segregation. Planning under a democratic dispensation has not significantly challenged or re-moulded these patterns. There is an urgency to address planning and economic development at a local level as it will serve as a critical foundation for the development and viability of municipalities.

Goal Definition
This goal encapsulates the various planning and economic development initiatives that are implemented to build safer communities (crime and disaster), healthier communities (health status, socio-psychological wellbeing, functional communities), and environmentally aware and active communities (improved environment management at a local). It also incorporates a specific focus on eradicating poverty and inequality at a municipal level.

Lead the fight against poverty, poverty, inequality and marginalization through:
- Improved municipal capacity towards LED for the creation of new and better jobs
- Improved access of Local Government to knowledge and information on transversal issues and poverty eradication
- Engage with national policy, industry or ICT agency structures to better enhance a local government ICT position.

Promote Local Government as a centre of Development and Planning through:
- Represent the interest of LG in the review of national and provincial policies to improve the ability of municipalities to manage development planning
- Support Municipalities to reverse the apartheid spatial planning and development patterns
- Support municipalities to increase to the number of those producing credible IDP’s
- Lobby for support of municipalities in rural development and agriculture by National Depts
GOAL 4

EFFECTIVE, RESPONSIVE AND ACCOUNTABLE LOCAL GOVERNANCE FOR COMMUNITIES

Problem Statement

The country, in its ambitious agenda to establish a developmental state and developmental local government has implemented a range of legislation, policy and institutional arrangements to deliver democratic governance to its people. The current legislation, policy and intergovernmental structures and practices do not always work in the interest of local government and in some instances, they work against it. Of particular concern are instances where the constitutional status of local government as an independent sphere of government has been negatively impacted.

Goal Definition

This goal encapsulates the various governance and intergovernmental issues from legislation and policy, to funding and institutional arrangements. It covers issue across all spheres of government and specific issues in relation to the local sphere of government.

Goal Execution

Effective IGR Support and International Relations through:
- Structured engagements between LG and executive at provincial and national level
- Sustainable & self-sufficient municipalities - able to deliver effective and accountable governance
- Effective participation of SALGA in National and Provincial legislatures

Cultivate good corporate governance and leadership
- Good governance in municipalities through effective internal governance structures and systems
- Improved and uniform system of support for public office bearers

Strengthened community participation in municipal governance through:
- Innovative and Effective Public Participation in municipalities
- Functional municipal boundaries and ward delimitation

Support Local Government to lead the fight against corruption
- A well coordinated Local Government fight against corruption

Facilitate an enabling environment for the functioning of developmental local government
- Comprehensive review of legislation and policy framework impacting on municipalities
GOAL 5

HUMAN CAPITAL DEVELOPMENT IN LOCAL GOVERNMENT

Problem Statement: While the relevant local government legislation and policy addresses issues relating to HRM&D there is no comprehensive and coherent dispensation for the sector as a whole which causes challenges in terms of implementing effective HRM&D policies and strategies. This scenario makes it difficult for SALGA to effectively perform its mandate as the employer representative for local government. The above scenario is further exacerbated by the challenging labour relations environment. Addressing the HRM&D and labour relations challenges is therefore critical in building stability in the sector and ensuring that the sector is appropriately resourced and capacitated to fulfill its mandate.

Goal Definition: This goal encapsulates the various policy, strategy and support initiatives that are required to establish a comprehensive HRM&D dispensation for LG. It also focuses specifically on labour relations as a key factor of productivity and service delivery. The goal places particular emphasis on achieving HRM&D stability and growth in sector and supporting skills development and optimal human resourcing for local government.

Goal Execution:

**Facilitate sound and stable labour relations through:**
- A mutual gains approach to collective bargaining facilitated
- Review of existing collective agreements framework
- SALGA position on amendments to the LRA incorporated in the Amendment Act
- Represent the interest of Local Government at NEDLAC and ILO

**Facilitate empowered leadership and workforce through:**
- Implementation Framework for professionalization of LG HR developed and implemented
- Systems, structures and partnerships for enhanced capacity building programmes established
- Enhanced peer learning and knowledge sharing within and between municipalities

**Facilitate improved Human Management through:**
- Local Government Human Resource Policy and Strategy developed and rolled out
GOAL 6
FINANCIALLY AND ORGANISATIONALLY CAPACITATED MUNICIPALITIES

The financial challenges faced by municipalities have been well documented, with some municipalities demonstrating a lack of financial viability. This has an obvious impact on the ability of municipalities to be fully functional and perform on its mandate. This is firstly due the challenges in the current fiscal framework and the processes associated with fiscal transfers and the equitable share model. It is also linked to a broader policy that does not differentiate in the definition or categorisation of municipalities. The reality is that many municipalities face significant challenges in financial and organisational viability. This problem has persisted since the establishment of democratic local government. Hence there is a need to address some the fundamental difficulties associated with the fiscal framework for local government.

This goal encapsulates the various policy, strategy and support initiatives that are required to build and enabling fiscal framework and adequate local government capacity to deal with financial management. The ultimate focus of this goal is build long term financial viability and broader sustainability of municipalities.

Efficient and effective municipal finance management and an Equitable intergovernmental fiscal system through:
• Lobby National Treasury, Parliament and other stakeholders for an equitable intergovernmental fiscal system
• Review Legislations and policy framework for efficient budgeting, revenue and expenditure management in LG
• Improved financial governance and audit outcomes
• Recognition of a differentiated financial support for municipalities
GOAL 7
EFFECTIVE AND EFFICIENT ADMINISTRATION

Problem Statement
Through its recent history SALGA as organisation have implemented various initiatives to position the organisation to effective deliver on its mandate. These initiative broadly have sought to ensure that strategy, structure, systems, processes, staff and style of organisation are aligned and functional. Given the significant pressure that will be placed on SALGA to deliver its strategy, it is critical that it has an effective and efficient administration.

Goal Definition
This goal encapsulates the various interventions that SALGA will implement to ensure that its administration functions effectively and efficiently. These interventions will cover areas of governance, products and services, performance management, people development and marketing and communication. In particular the goal will also focus on consolidating SALGA as a unitary structure with national footprint. Part of the process of consolidation will include a bolstering of SALGA’s financial and organisation viability.

Goal Execution
Develop SALGA as a centre of excellence
- Operational excellence model developed and implemented
- Improved stakeholder relations and cooperation
- Marketing and communication plan implemented
- Good Business Governance and knowledge management
- Financial management and sustainability
- Human resources management and building capacity building
- Compliance with legislative environment
# APEX PRIORITIES

## APEX PRIORITY 1
**REVIEW OF THE LEGISLATIVE AND POLICY FRAMEWORK**
- Comprehensive review of legislation and policy framework impacting on municipalities
  - SALGA to participate more effectively in national and provincial legislatures
  - Review regulatory environment towards sustainable service provision
  - Represent the interest of local government in the review of national and provincial policy to improve the ability of municipalities to manage development planning
  - Review legislation and policy framework for efficient budgeting, revenue and expenditure management in local government
  - Lobby for well defined powers and functions for local government

## APEX PRIORITY 2
**REVIEW OF LG FISCAL AND FINANCIAL MANAGEMENT FRAMEWORK**
- Lobby NT, Parliament & other stakeholder for equitable intergovernmental fiscal system
  - Recognition of differentiated approach to financial support to municipalities
  - Facilitated access to Bulk Infrastructure Fund for priority projects
  - Lobby and support municipalities for a sustainable Pricing and funding of services facilitated
  - Lobby for a well defined and funded local government role in District Health System

## APEX PRIORITY 3
**IMPROVED MUNICIPAL CAPACITY**
- Local government human resources policy and strategy developed and rolled out
  - Advocate institutional arrangements to render sustainable services facilitated
  - Adequately capacitated and funded role for local government on migration and related public safety
  - Systems, structures and partnerships for enhanced capacity building programmes established
  - Enhanced peer learning and knowledge sharing within and between municipalities
PART 2:

PROGRESS OF ISSUES RAISED IN LAST APPEARANCE BEFORE PC

(APRIL 2011)
1) Assistance to municipalities where disasters occurred, moves at a slow pace

2) Compliance with the Disaster Management Act, No 57 2002 has been poor, eg not all provinces and districts have disaster management centres.

3) Senior Management level in the Department of Co-operative Governance was not gender representative.

4) The management and treatment of the Khoi-san community by the Department of Traditional Affairs has not been decided upon.

5) Some of the policy that they want to make an input on, like ukuthwala and initiation, is within the scope of other departments like the Department of Home Affairs and the Department of Health.

6) Funding allocation to the CRL Commission is not sufficient even for basic resources.

7) The committee notes that Kwanaloga operates as a separate entity from SALGA.

8) The committee notes that amongst the huge amounts of outstanding monies owed to municipalities, there are debts by government departments (inter-governmental debt)

9) The committee also notes that some of the infrastructure constructed is of poor quality as a result of poor supervision and monitoring.
1) Steps should be taken to speed up post-disaster assessment processes, so that resources are speedily sent to disaster areas to avoid the late disbursement of resources. The question of outstanding disaster management funding should be resolved within three months.

2) After completion of the report of the commission dealing with traditional leadership, the committee must be briefed on the commissions’ findings.

3) The role and effectiveness of the CRL Commission, and its funding, must be reviewed.

4) The matter of Kwanaloga’s relationship with SALGA should be resolved by September 2011.

5) Debts owed to municipalities by government should be paid in the first year of the new councils’ existence. New councils should sort out the billing systems, etc., and a progress report should be submitted to the committee by October 2011.

6) The monitoring and supervision of infrastructure rolled out must be monitored more robustly and on a regular basis. Proactive planning on where people should reside when moving from rural areas to cities must be done. Areas identified must be people sensitive.
PC Recommendation

Steps should be taken to speed up post-disaster assessment processes, so that resources are speedily sent to disaster areas to avoid the late disbursement of resources. The question of outstanding disaster management funding should be resolved within three months.

</tbody>
</table>
The matter of Kwanaloga’s relationship with SALGA should be resolved by September 2011.

Following the Provincial Conference of KZN held from 4 – 5 August 2011 it resolved that:-
• The Kwanaloga constitution is hereby rescinded and the Salga constitution which is currently applicable to Salga and the Provincial Associations is hereby adopted
• The Association will henceforth be known as “The South African Local Government Association – Kwazulu-Natal” (“Salga KZN”)
• Governance and all other related matters, including those relating to staff, assets and liabilities will be subject to negotiation and agreement between Salga National and Salga KZN.
• The election of office bearers and the provincial executive committee shall be conducted in terms of the current Salga constitution

The matter was also tabled and considered by the National Conference, which amongst others resolved that:
• It must be acknowledged that the migration is not an overnight process. However, the need to expedite the resolution of the matter cannot be overemphasized given the imperative of restoring a single and unified organisation.
The SALGA National Executive Committee (NEC) at its meeting held on 20 September 2011 resolved that:-

• The political decision to reintegrate SALGA KZN has been taken by both the Provincial as well as the National Conference and what remains outstanding is the administrative reintegration.
• The detailed proposed approach to reintegrate the administration be adopted.
• A Political Reintegration Committee comprising of the two SALGA deputy Chairpersons (Cllrs M Nawa and N Sihlwayi) and two SALGA KZN PEC members supported by the heads of the administration of SALGA and SALGA KZN, is established to oversee the administrative reintegration process.
• The Political Reintegration Committee to report regularly to the NEC on progress in finalizing the matter.
• The reintegration process be completed within three months from the date of the National Conference in accordance with the Conference resolution.

Progress to date:

• SALGA KZN has participated in the development of the SALGA Strategic Plan 2012-2017.
• SALGA KZN APP 2012/13 has been incorporated into the SALGA APP 2012/13
• Staff at SALGA KZN has been inducted on all HR, Finance and Corporate Governance related policies of the public Entity.
Debts owed to municipalities by government should be paid in the first year of the new councils’ existence. New councils should sort out the billing systems, etc., and a progress report should be submitted to the committee by October 2011.

**PC Recommendation**

**Water:** The availability of and the quality of water appears to be a real challenge facing many of our municipalities, impacting negatively on their ability to develop the local economy at times. SALGA should engage the Department of Water Affairs quite aggressively to jointly come to an amicable solution to this potential disaster. In the same breath, SALGA must ensure that in a comprehensive way, it presents a compelling case for the water green economy issues.

**Update:** SALGA has conducted an Section 78 assessment on water, and all municipalities that have not undertaken S78 processes are supported to do so. Using water services as a pioneer, SALGA produced a guide on local regulation of water services. SALGA is supporting the piloting the implementation of the Water Services Guide in municipalities.

**PC Recommendation**

**Statistics:** With census being conducted once a decade, it creates a number of difficulties for municipalities that are forced to use this outdated information to provide services but also to receive funding from the national fiscus. There is a need to come up with a creative way of using data collected by municipalities in the day to day delivery of their services to update the official statistics.

**Update:** The Municipal Barometer established and updated through local data program as part of SALGA’s knowledge sharing and peer learning programme.
Local Government Fiscal Review: The Committee received a report from National Treasury earlier in the week and would like to engage SALGA further on the report. Salga needs to make its views clear on the forthcoming conference or summit on the local government fiscal review.

Update: SALGA to Lobby National Treasury, Parliament and other stakeholders for an equitable intergovernmental fiscal system. Submission to be made on fiscal framework to the Budget Forum, FFC, Parliament and other Stakeholders during 2012/13. This has been identified as one of SALGA’s APEX priorities.

Organised Local Government: The funding of SALGA has previously been made known to the Committee what are the latest developments including proposals for legislative amendments?

Update: SALGA continues to explore alternative sources of revenue, but no solution has been identified yet. SALGA has, however introduced a robust stakeholder management system to harness the goodwill and funding from stakeholders to the benefit of our members.
THE END

THANK YOU
